Fernando Morales
Sr. Impact Manager
SEAF

PLEASE INTRODUCE YOURSELF AND YOUR WORK.

I am from Honduras and have worked in impact investing at different levels and geographies. I currently lead SEAF's global Impact Management practice across all our portfolios. I enjoy working with portfolio companies to ensure our investments will have a positive social and environmental impact.

WHY DOES SOCIAL VALUE MATTER TO YOU?

I am a big believer in understanding what matters to beneficiaries and other stakeholders in order to ensure our activities are aligned with their best interests. Social value is essential for this and the SVI network and tools provide strong guidance in accomplishing this.

WHY DID YOU DECIDE TO JOIN SVI?

I first joined SVI as an opportunity to learn and improve my Impact Management practice.

I have also realized that it provides a wide network of other professionals to share and exchange challenges and solutions.

HOW HAS SVI MEMBERSHIP BEEN OF VALUE TO YOU?

The membership provides access to other practitioners' work which serves as guidance and inspiration for our work.

As a Level 1 practitioner, I benefit significantly from having access to this work and resources. The practitioner status itself is a huge benefit as it represents rigor and relevance in IMM.
